

## Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: December 5, 2007

Water Body Under Evaluation:

Water Body ID #: 0829  
Name: Rising Creek (Class C)  
Length of Segment: 4.0 miles  
County(ies): Cole

Use Attainability Analysis (UAA) Study:

UAA ID #: 0206  
Submitter: SES, Inc.  
Date(s) Conducted: May 9, 2007  
Date Received: June 3, 2007  
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in May 2007 on this upper of the two Rising Creek segments and no WBCR was observed. No interviews were conducted during the survey. One interview conducted in June 2006 (at Site #907) revealed personal swimming use since 1975 and observations of others swimming, fishing, and trapping since 1975.

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The stream did not meet the depth criteria at any of the 3 sites evaluated. However, due to the June 2006 interview indicating existing WBCR and secondary contact recreation uses, the committee recommends the WBCR and Secondary Contact Recreation use designations be assigned.

**Committee Recommendation:**

- ☒ Add Use ☐ Retain Use ☐ Remove Use
- ☐ Modify Use ☐ Inconclusive
